#### MORE ABOUT THE CENSUS.

East Becoming a By-Word and Reproach in Washington.

THE WHOLE THING SAID TO BE A MUDDLE.

The Next Speakership-Good Democratic Prospects in Pennsylvania-Capital News and Notes in General.

WASHINGTON, D. C., July 13 .- [Special, ]-Porter's census" is fast becoming a by-word and reproach, and as yet the public has a vory faint conception of its gross errors, blunders and defects. From the outset his has this charge Porter refers to the fact that Republicans have made complaints against the bureau. This is a ruse strong. dodge. Republican complaints have usually been based upon disappointment that party bosses and others failed to get as much con-

for places. His pretense of having established a system of examination of applicants was a wilful fraud upon the public. The appointment or rejection of an applicant depended upon his or her recommendations; influence" as it is commonly known here. There was no chance for Democrats except in rare instances where Porter recognized some rare instances where Porter recognized some claim on the score of personal relations. The result is that the statistics collected are incomplete, confusing and misleading. Whenever figures were of importance enough to command attention in a political contest, Porter had them so arranged as to tell against the Democracy, Hence his persistent misrepresentation of the great Democratic city of New York. His pet scheme has been to collate and shape figures so as to apparently support the protective tariff.

ALLIN A MUDDLE.

Now when the most important part of the work should be nearing completion it is all a muddle. The original Act of Congress prowiddle. The original Act of Congress widing for this census limited the cost to \$6,400,000. The following year, in 1890, this was increased by \$87,500, and a little later by \$1,000,000, the latter being to take statistics of mortgage indebtedness. This incould now tell how much remains on hand. It is very certain that the next Congress will be asked for \$2,000,000 or \$2,500,000 to complete the census, and if the work is to be completed the money must be voted despite the fact that the law solemnly declares, "It shall not be lawful for the Secretary of the Interior or Superintendent of the Census to incur any expenses or obligation whatever in respect to said census in excess, of that sum" (the limit prescribed). Clerks by the hundred have been transferred from one division to another when the money appropriated for one division had been exhausted, and this was a violation of plain law. The next House will, before making the additional appropriations, investigate the conduct of the bureau and expose its methods.

THE SPEAKERSHIP.

Representative Crisp is back from New York Without entering into details or mak-ing any special claims, he says he received during his sojourn in the Empire State gratifying assurances of support for Speaker. Judge Crisp takes just such concerning the Speakership as might be expected from him. He says no matter whom the successful candidate may be, he will be PROSPECTS IN PENNSYLVANIA.

Ex-Congressman Kerr, of Fennsylvania, chairman of the Democratic committee of that State, is in the city watching closely the canvass for clerk of the next House, a place he wants. He speaks very hopeful of the Democratic prospects in the coming Fennsylvania contest. He says the Republicans are divided more than ever; that the Bardsley steals have disgusted so many Republicans in Philadelphia that the Democrats will certainly cut down very largely the usual Republican majority in that city. As the manager of the Pattison campaign Mr. Kerr piloted that sterling Democrat to the Geverno's seat and if he shall succeed in leading his party to anther victory this fall it will be next to impossible to defeat him for clerk. The Democrats ble to defeat him for clerk. The Democrat will feel like giving him anything he wants.

BIDS FOR NEW ROFLES. Bids were opened at the ordnance bareau of the War Department to-day for the con-struction of twenty-five eight-inch, fifty tenstruction of twenty-five eight-inch, fifty teninch and twenty-five twelve-inch breachloading rifles for seaconst defense. Under
the terms of appropriations for these guns,
one-fourth of them may be built on the
Pacific coast if an advantageous contract can
be made with any firm in that section of the
country. There were but three bids received,
those of the Medvale Steel Company, the
South Boston Iron works and the Berhlehem
Iron Company. The Bethlehem company
were the lowest bidders.

EUROPE'S BREAD MUST COME FROM AMERICA. A report on the harvest prospects in France A report on the harvest prospects in France and Europe has been received at the State Department from commercial agent Griffin, of Limoges, France. The National Millers' Association of France, the report says, has just issued an estimate founded on very carefully collected data of the probable wheat harvest of France and Europe for 1891. The estimated yield of wheat of 1891 will be \$2,779,000 hectoliters. This is the maximum estimate, it will be 31 per cent, less than 82,779,000 hectoliters. This is the maximum estimate, it will be 31 per cent. less than the harvest of 1890. Russia, Tunis, Fgypt, Roumania and some of the Danubian provinces will have a fair harvest. In Hungary it will be below the average this year. The estimates given by the millers, the report says, are optimistic. The desire to create an impression that there is a better supply than really exists, is all done with a purpose. They want to have an impression that there is a better supply than really exists, is all done with a purpose. They want to buy grain and as cheaply as possible in those fortunate countries that have an abundance to export. In conclusion the report says not only France, but all Europe is looking longingly to the wheat fields of the United States. Last year many hoped that South America would help supply the deficit, especially the Argentine Republic, but to-day no mention is made of these countries; all hope is is made of these countries; all hope is built upon the United States' harvest. The fact as recently stated is that the bread of Europe must come from America.

COUNTING THE MONEY. The committee—Messrs. Daskam, Millikan and Huntington—counting the money in the Treasury on the transfer of the office of United States Treasurer from Mr. Houston to Mr. Nebeker, has completed its work. The total amount of money counted was \$614,511,582,32, of which \$175,950,000 was gold and silver coin, the rest being paper money. The money was found correct to a cent. count has been in progress two months, and most of that time sixty people have been employed in the work.

# Maryland Confederates Gratified.

Baltimons, Mn., July 13.—Much gratification is expressed by Maryland Confederates over the decision of Mrs. Jefferson Davis in choosing the city of Richmond as the permanent resting place for the remains of her dead husband. A prominent member of the Society of the Army and Navy of the Confederate States in the State of Maryland, said to-day that the society would take no action towards expressing its approval before the unveiling of the proposed Davis monument.

#### THE OHIO GOVERNORSHIP. Indications Are That Campbell Will be Nomi-

nated on the First Ballot. CLEVELAND, July 13.—The delegates to the Democratic State Convention are arriving in

the city, and the indications are that to-morrow will witness one of the largest Democratic gatherings ever assembled in the Buckeye State. Although the preliminary meeting of all the committees will be held to morrow the convention proper will not meet until 10 o'clock A. M. Wednesday. Hon. Allen W. Thurman, son of the "Old Roman," is to be the temporary chairman, as this selection is made by the State Central Committee. made by the State Central Committee.

It is apparent to all except the friends of other candidates that Governor James E. Campbeil will be renominated on the first ballot although the friends of Hon. Lawrence Neal still insist that their candidate has a aghting chance. Hamilton county will cast a solid vote for Neal unless the strenuous afforts that are being made by the Campbell men to have the renomination go to the Government. been a political machine. In reply to ernor by acclamation should finally induce harmony. The feeling against Campbell among Hamilton county delegates is so strong, however, that it is a very sanguine man indeed who would predict harmory in

#### A DOUBLE HOMICIDE.

#### Apparently a Causeless Murder and Suicide in a Little Missouri Town.

JEFFERSON CITY, Mo., July 13 .- A double homicide occurred at Toss, ten miles east of this city, yesterday morning. Just after mass widing for this census limited the cost to \$6,400,000. The following year, in 1890, this was increased by \$57,500, and a little later by \$1,000,000, the latter being to take statistics of mortgage indebtedness. This increased the total to \$7,487,000. Of this amount all save \$12,500 has been actually appropriated, but not even the census officials could now tell how much remains on hand. It is very certain that the next Congress will be asked for \$2,000,000 or \$2,500,000 to complete the census, and if the work is to be completed the money must be voted despite the fact that the law solemnly declares, "It shall not be lawful for the Secretary of the Interior or Superintendent of the Census to incur any expenses or obligation whatever in respect to said census in excess, of that in the small Catholic church at that place school house near by. Frank started down the roadway, but had gone but a short dis-tance when he again placed the revolver at his head and blew out his brains.

No cause was discovered for Frank's assault

#### The Navajo Indians Threatening the Safety of the Cattlemen on Their Borders.

FLAGSTAFF, A. T., July 13 .- During the past month the Navajo Indians have been acting in a defiant manner towards the whites and it is the general belief that they are only waiting for a favorable opportunity to drive the cattlemen from their ranges. A courier has just arrived here from the Little Colo-rado, thirty miles northeast, with intelligence that a band of 800 Navajos have taken possession of stock on William Roden's ranch, driving the herders from the range and shaughtering a large number of cattle. The Indians are well armed and can get large reinforcements from the reservations.

Sherid Francis left for the scene of the trouble this morning with thirty armed cowboys to arrest the leaders of the band. If Francis fails to arrest the chiefs and get the Indians back on their reservation, the War Department will be appealed to, and troops will probably be ordered out. The Navajos are the largest tribe in the Territory, there being about eighteen thousand of them, and they

# BISHOP BROOKS' CONSECRATION.

#### He Says That Nothing Has Been Settled in Regard to It.

LAWRENCE, MASS., July 13.—Bishop-elect Phillips Brooks was seen yesterday at North Andover Centre, where he is spending the summer at the old Phillips manor. When asked about his confirmation he said that there was nothing to say. "If there was I would tell you." he added: "but there is abso-

lutely nothing."

About the consecration he could tell nothing as yet. It may take place in Trinity church, but the whole matter lies in the dis-cretion of Bishop Williams, of Connecticut, the presiding bishop. "I will undoubtedly be consulted." said he, "but so far nothing has been done or thought of either as to time, place or those who will take part. It will not, owever, take place for two or three months

# CORONER LEVY INDIGNANT.

#### He Says That Warden Brown Will be Present at the Smiler Inquest.

Levy, in an interview with a reporter this morning, said that he had not yet decided as to what course he will pursue in connection with the investigation regarding the elec-trocution of Smiler. The coroner was very indignant over Warden Brown's assertion, made in a morning paper, that the whole thing was a political move on his part. He says that the warden will be present at the investigation and that he will not smoke eigars and keep his hat on while in his court

In conclusion the coroner said: "I will have every one who was at the electrocution pres-ent at the investigation."

# WAR ON THE ALLIANCE.

#### The Democratic Editors of Kansas Will Shortly Issue an Address.

CHICAGO, July 13,-A special dispatch from Topeka, Kan., says the Democratic editors, who have been holding a meeting here, have decided to prepare an address to the people of Kansas, and also warn the Demorrats of the nation against the Farmers' Alliance. A committee was appointed to draft an address and another meeting provided for July 27th, at which time the committee will report. In the meanwhile the Democratic editors will begin a systematic In the meanwhile and determined warfare on the Alliance.

Nagle made an unsuccessful attempt to kill himself by pounding his head with the axe, but he only succeeded in inflicting four or five bad cuts. He is in custody and claims that he did not know what he was doing at the time of the murder, as he had no cause to murder his wife, they not even having had a quarrel. He has been drinking hard of late. It is stated that there is a taint of insanity in his family.

In the fourth inning Gruber was put in to relieve Knauss, but it made no difference to the Bridegrooms. In this inning the home team got thoroughly demoralized. Between their numerous and fearfully bad errors and the hard hitting of Ward's team the visitors rolled up nine runs. The Spiders hit Terry hard at times and with the aid of errors by Bulley and Finckney gathered a few runs. In Dailey and Finckney gathered a few runs. # GLADSTONE WILL NOT RESIGN.

He Says That He Has No Idea of Giving Up the Liberal Leadership.

#### PRINCE OF WALES WILL GO TO GERMANY

He Accepts the Kaiser's Invitation-Lord Salisbury's Entertainment of the Emperor - Foreign Events.

(By Cable to The Times.) LONDON, July 13 .-- For some time past reports have been in persistent circulation alleging that Mr. Gladstone, because of his advanced age and failing health, had determined to abdicate the leadership of the Liberal party in favor of some younger and more vigorous man, and much speculation has been indulged in as to which of the more prominent among the lieutenants of the ex-premier would succeed him. These rumors gave rise to such confident predictions on the part of the political opponents of Mr. Gladstone that he would never lead the liberal party in another general elec-tion campaign that many of his followers were induced to accept the statements as based upon personal information to that effect. Recently a close personal friend of Mr. Glad-stone wrote to him calling attention to these reports and asking him to say what part if reports and asking him to say what part it any he would take in the coming campaign. On Saturday a reply was received, which is given to the public this morning. Mr. Gladstone writes that he has not, nor has he had at any time the remotest intention of giving up the leadership of his party, but on the contrary he intends to take a very vigorous personal part in the next struggle for party supremacy in the House of Commons. The letter was in the House of Commons. The letter was written by Mr. Gladstone himself, and shows neither in phraseology nor chirography the slightest sign of the waning powers ascribed to the writer by those who would gladly see him abandon the field and cease the activity with which he has hitherto obstructed their

It is reported that the Emperor has invited the Prince and Princess of Wales to visit Germany in full state during the coming autumn, and that the Prince and Princes have, with the consent of Queen Victoria, accepted the invitation.

Lord Salisbury's entertainment of the Em-

peror and Empress of Germany at Hatfield house yesterday was taken advantage of by the residents in the reighborhood and the countryfolk for miles around, who flocked to the seat of the premier to pay their respects to the seat of the premier to pay their respects to
the imperial visitors and incidentally to enjoy
the freedom of the spacious and beautiful
grounds which surround that famous
old English home. The gates of the
vast park were thrown open and
thousands of people, many of whom had
traveled dozens of miles in vehicles of every
description and stage of dissolution and on
foot, througed the pathways and lawns, and
devoured the luncheous they brought with devoured the luncheons they brought with them under the shade of the great trees. The Emperor is said to have enjoyed this picture of rural life quite as much as he did the more corgeous sights presented in his honor in the

To be knights on the kaiser's account. The announcement is made that the Right Honorable Joseph Savory, Lord Mayor of London, will shortly be knighted by the Queen, in recognition of his gorgeous entertainment of the German Emperor at the Guidhall. It is also stated that Mr. Augustus Harris, the manager of Covent Garden Theatre, will also be elevated to the dignity of knighthood, he having been lucky enough to number the Kaiser and party among the occupants of his boxes, instead of some other equally able but less fortunate impressario. In the case of Savorythe dignity was a foregone conclusion, but to Harris his elevation comes like the fulfillment of a dream. Long ago, it is said, his hopes were set upon the attainment of the title "Sir," and he has several times seen it glide away from him when it seemed almost won. TO BE ENIGHTS ON THE KAISER'S ACCOUNT

away from him when it seemed almost won. THE KAISER LEAVES LONDON. The Kaiser returned from Hatfield house this afternoon, and proceeded directly to Windsor, whither he was escorted by the life guards. The Queen met him at the entrance to the castle, and led her imperial guest to ber private apartments, where she embraced him with much warmth. After an hour's con-versation the Queen bade him an affectionate good-bye, and the Kaiser took his departure for London. Here he joined the Kaiserine and proceeded with her to the railroad station, where she took a train en route for Felixstowe, to remain a month at that place with her children. The Kaiser expressed himself delighted with his visit to Hatfield

# BUSSIA DISPLEASED.

Sr. Petersnuca, July 13.—The Russian press express great displeasure at the cor-dialty and enthusiasm which have characterized the visit of the Kaiser to England. Several of the leading journals suggest that Russia and France join in a protest against English occupation of Egypt. Elaborate preparations are being made at St. Petersburg and Cronstadt to give a warm welcome to th

# FOREIGN VIEW OF THE FAIR.

What the London Times Has to Say of the Columbian Exposition.

LONDON, July 13 .- The Times to-day in a long article on the World's Fair reviews the growth and importance of Chicago and says in many respects surpass all exhibitions pre-viously held. that it is not doubted that the exhibition will

viously held.

Concerning the advantages to British exhibitors the Times says that "while it is not doubted that no advantage can accrue to some traders, it must be remembered that the exhibition is likely to attract visitors from many countries, including China, Japan, South America and Australia and from many markets America and Australia and from many markets in which American and English manufacturers are now or soon may be in competition, while even in America itself the perhaps only temporary existence of high import duties may not induce the wealthier portions of the community to deny themselves the luxury of English manufacturers in those departments in which England stands without rival.

The more thay see the wares England can The more they see the wares England can produce the more certain they are to become impatient at the system which loads these wares with almost prohibitory duties.

The Times enumerates the disadvantages arising from the distance of Chicago from England, the high cost of labor in the United States and from the alien labor act, but it says

Paris, July 13 .- While President Carnot was opening a new avenue to-day a madman rushed toward his carriage and fired a pistol at him.

The man was arrested. The President was not hurt.

# Prayers for Spurgeon.

[By Cable to The Times.] LONDON, July 13 .- The condition of the Rev. Mr. Spurgeon is growing hourly worse. The Bishop of Ripon called to-day and made inquiries concerning him, and Mr. Dwight L. Moody and Rev. Dr. Wyland cabled from Massachusetts their sympathy and prayers. A special prayer-meeting of two hours' duration was held in the tabernacle to-day to be seech the Almighty for his recovery.

# MR. BLAINE'S HEALTH.

#### He Says the Sensational Reports Circulated About His Condition Are All Lies.

BAR HARBOR, ME., July 13 .- A reporter conversed with Secretary Blaine for a few minutes this morning. He said:

"I am as well as usual to-day. The sensa-tional reports about my health sent to the press all over the country are lies. I am and a sick man. They have magnified a slight illness into something very serious.
"I am taking no medicine whatever. I go out every day and often twice a day. I have a good appetite, cat whatever I desire, rise at 6 o'clock and retire at 10 or 11—in short, live in my usual manner. There is nothing more to

trace of weakness.

He took a long ride this morning in an ope carriage through the principal streets and some distance into the country.

He gets in and out of the carriage without

assistance, sits erect, recognize acquaintances as in former years and does not seem fatigued by riding. The reports that Mr. Blaine is mentally unsound are utterly false and Emmons Blaine said this morning:
"My father is constantly improving. We no longer consider him a sick man."

Secretary Blaine was out riding this even-ing and did his own driving, as he has done several times of late. His physician said to-night that he was improving rapidly, and within the last few days he has seemed to

take a fresh hold on life and strength. Those near the secretary are confident that he will return to Washington in the fall a well man. ANOTHER CRANK SHAFT BROKEN.

The Schledam, From Rotterdam, Has, to Go Ahead Under Slow Steam. New York, July 13 .- The steamship Olympia, which arrived here this morning from various Mediterranean ports, reports that on the 11th of July at noon she spoke the Dutch steamer Schiedam, from Rotterdam for New York, in a dis-abled condition, her crank shaft being broken. She, however, expected to repair the damage soon and declined offers of assistance from the Olympia. The repairs were evidently effected in a few hours, as the steamship England, from London, which also arrived here this morning, reports that on the 11th instant, at 6 o'clock in the evening, she saw the Schie-dam proceeding under slow steam.

Condition of Affairs in Hayti.

New York, June 13.—The Atlas Line mail steamer Athes from Port Dimon strived here steamer Athos from Port Dimon arrived here
this afternoon. Late in June the Athos
touched at Hayti, and, according to her officers, it was learned that Fred Douglass, United States Minister to Hayti,
had left his post at Port-au-Prince
because the Haytian Government did not care to recognize a representative of the United States, and that it was rather the de-United States, and that it was rather the desire of the "Black Republie" to break off all official intercourse with the United States. Hayti is afraid of this country, and to avoid interference of any kind from this Government would sacrifice official intercourse with it. There has been no report of revolutions when the Athos touched at Hayti, and no news of that country was received on the return trip when try was received on the return trip when she put into Kingston, Jamaica, except that Legitime was still there, and that he was growing in favor. The Haytiens prefer him to Hippolyte, and only await his word to institute another revolt.

Powderly Refuses the Commissionship. Powderly Refuses the Commissionship.
Schanton, Pa., July 13.—General Master
Workman Powderly has declined the World's
Fair commissionship to which he was appointed a few days ago by Governor Patterson. Mr. Powderly says he has not the time
necessary for a proper discharge of the duties
of the World's Fair commissioner; that he intends to seek an election to the constitutional
convention this fall in the interest of ballot
reform, and that as the head of a great labor
organization, he must be independent of all
entangling political alliances, to the end that
he may be free to criticise the acts of public
officials.

Furious Storm of Hall and Rain, ARERDEEN, S. D., July 13.—The furious storm of rain and hail last night extended over an area of ten miles wide and thirty or forty miles long. It is estimated that hundreds of acres of wheat have been destroyed. Near Charemont, Farmers Harlan, Cooley, Whitfield and others lost houses and barns. Hailstones measuring over ten inches in circumfrence were picked up.

Killed at a Cake Walk. Nasaville, Tenn., July 13.—At a negro festival at Cedar Hill, in Robinson county last Saturday night. Vena Washington, a negro woman was instantly killed and Charley Bell was mortally wounded. The murderers, Ahe Jemison and Washington Burns, fled and were pursued by the sheriff and a nosse.

Harrison Can't Leave that Cottage.

CAPE MAY, N. J., July 13.—A delegation from Atlantic City was here this morning and invited the President to visit that resort. He courteously and firmly declined, saying that he was here for rest, and there was none in accepting the many invitations daily received from all over the country. Mayor Hoffman and General Hastings, of Pennsylvania, were the spokesmen of the occasion.

England, the high cost of labor in the United States and from the alien labor act, but it says it may at least be hopefully remembered that the Government has supreme control of the exhibition and that there will be, therefore, ample power and willingness to set aside for a time all impediments which might threaten to diminish the success of the fair. The enormous resources of the United States will be freely used to support what has now become a national enterprise. The result can hardly fail to be commensurate with the magnitude of the means which will be employed.

If it be decided that the royal commission to represent Great Britain at the World's Fair will be composed of the council of the Society of Arts, which carries with it the prestige of having the Prince of Wales as its president and Sir Richard Webster, the attorney-general, as its chairman. The council contains many members who are well qualified to insure a successful issue. The appoint-
